Subscription Plans

Welcome to fillZone

fillZone is a B2B platform designed to connect businesses with contract manufacturers across Europe. Our goal is to make the search for suitable manufacturing partners easier, more transparent and more efficient – while providing manufacturers with a central platform to present their company, showcase their capabilities and connect with potential customers.

Companies looking for reliable manufacturing partners can use fillZone to search, compare and contact manufacturers across four key industries: Pharmaceuticals, Cosmetics, Food and Chemicals. By bringing relevant information together in one place, we help businesses identify potential partners that match their specific requirements – without the need for time-consuming searches across countless individual websites.

For contract manufacturers, fillZone offers the opportunity to increase their online visibility and reach businesses actively looking for manufacturing and filling services. A company profile provides a dedicated space to introduce your business, present relevant information and make it easier for potential customers to discover and contact you. As the platform continues to grow, we aim to create an increasingly valuable network that brings manufacturers and businesses together across European markets.

Our approach is simple: We want to make it easier for businesses to find the right manufacturing partners and give manufacturers new opportunities to showcase their expertise and generate business inquiries.

To support manufacturers at different stages of their presence on fillZone, we offer several profile plans with different features and possibilities. You can start with a free profile and expand your company presentation as your needs grow. The following overview explains the features included in each plan and how they can help you make the most of your presence on fillZone.

To support manufacturers at different stages of their presence on fillZone, we offer several profile plans with different features and possibilities. You can start with a free profile and expand your company presentation as your needs grow. The following pages provide a detailed overview of our available subscription plans, outlining their respective features, benefits and pricing to help you find the option that best suits your business.

Free Plan

€0 / month

Get started on fillZone and establish your company's presence on our platform.

Included features:

Company Profile Picture

Upload your company logo or profile image to create a professional and recognizable presence on fillZone.

Company Data

Add and manage your company's contact information directly through your profile. You remain in control of your details and can update them whenever necessary.

The company data include the following information:

- displayed company name
- website
- address
- contact data (e-mail, phone number)
- founding year, company size and shipment options
- industry information
- social media links (Instagram, LinkedIn)

Services Information

Provide information which services your company is offering (e.g. Private Label, White Label, ...).

Verified Provider Badge

Display a badge indicating that your company profile is maintained by you. This helps potential customers recognize that your information is managed directly by your company.

Basic Plan

€29 / month

Expand your company profile and showcase your manufacturing capabilities in greater detail.

Everything included in the Free Plan, plus:

Packaging & Quantities

Specify the types of packaging and containers your company can offer. Select from different packaging types and define your production quantities (MOQ and max. quantity).

Certifications

List your company's certifications to demonstrate your quality standards and qualifications. This helps potential customers assess whether your company meets their project requirements and improves your visibility in relevant search results.

Note

- All prices are quoted in euros (€) and are final prices. In accordance with Section 19 of the German VAT Act (§ 19 UStG), no value-added tax is charged or shown.
- Should the small business regulation cease to apply, VAT at the statutory rate will be added to the prices from that point onwards.
- All subscription plans are intended exclusively for business customers (B2B).
- The Pro Plan is currently under development and will be available soon.
- Subscription periods, billing cycles, renewal terms and cancellation conditions are governed by the applicable Terms and Conditions.
- A subscription provides access to the features and services specified in the respective plan. The availability and scope of features may evolve as the platform develops.
- fillZone does not charge commissions or intermediary fees on customer inquiries, orders or successfully concluded manufacturing agreements.
